

# Richmond Street Apt.

London, Ontario

## Project Stats

**Type:** Student Housing

**Size:** 337,000 sq. ft.

**Total Construction Time:** 19 months

**ICF Installation Time:** 8 months

## Construction Team

**General Contractor:** Reid & Deleye

**ICF Installer:** Becon Concrete & Construction

**Architect:** SRM Architects, Inc

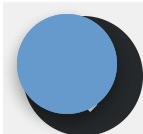

This 19-story student housing complex, adjacent to University of Western Ontario, was built using Nudura® Insulated Concrete Forms, which saved 5 months of construction.

This project was the first major ICF building in London, Ontario however it has inspired several other ICF buildings of comparable size in the area that are now underway.
